

Project Design Phase-II Data Flow Diagram & User Stories

Date	30 September 2026
Team ID	SWTID-2026-4655
Project Name	AI FAQ Assistant
Maximum Marks	4 Marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

Example: [\(Simplified\)](#)

Flow

1. User configures credentials for the Watson Natural Language Understanding service and starts the app.
2. User selects data file to process and load.
3. Apache Tika extracts text from the data file.
4. Extracted text is passed to Watson NLU for enrichment.
5. Enriched data is visualized in the UI using the D3.js library.

Example: DFD Level 0 (Industry Standard)

User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Customer (Mobile user)	Registration	USN-1	As a user, I can register for the application by entering my email, password, and confirming my password.	I can successfully create an account and access the application dashboard.	High	Sprint-1
		USN-2	As a user, I will receive a confirmation email once I have registered for the application.	I can receive the confirmation email and click the confirmation link.	High	Sprint-1
		USN-3	As a user, I can register for the application through Facebook.	I can register and access the dashboard using Facebook Login.	Low	Sprint-2
	Login	USN-4	As a user, I can register for the application through Gmail.	I can register and access the application using Google/Gmail login.	Medium	Sprint-1
		USN-5	As a user, I can log into the application by entering my email and password.	I can successfully log in and access my dashboard.	High	Sprint-1
		USN-6	As a user, I can view the AI FAQ Assistant dashboard.	The dashboard displays the FAQ search and AI chatbot options.	High	Sprint-1
		USN-7	As a user, I can ask questions to the AI FAQ Assistant.	The AI FAQ Assistant provides a relevant answer to my question.	High	Sprint-1
		USN-8	As a user, I can view frequently asked questions.	Frequently asked questions are displayed clearly.	High	Sprint-1
		USN-9	As a user, I can search for a specific FAQ.	Relevant FAQ results are displayed for my search.	High	Sprint-1
		USN-10	As a user, I can provide feedback about an AI answer.	My feedback is submitted and stored successfully.	Medium	Sprint-2
Customer (Web user)	Registration	USN-11	As a web user, I can create an account.	The web user can register successfully.	High	Sprint-1
	Login	USN-12	As a web user, I can log into the AI FAQ Assistant.	I am redirected to the dashboard after successful login.	High	Sprint-1
	FAQ / Chatbot	USN-13	As a web user, I can ask questions through the chatbot.	The AI chatbot displays a relevant response.	High	Sprint-1
Customer Care Executive	Customer Support	USN-14	As a customer care executive, I can view customer questions.	Customer questions are displayed in the support panel.	High	Sprint-2
	FAQ Management	USN-15	As a customer care executive, I can add and update FAQs.	New and updated FAQs are saved successfully.	High	Sprint-2

	Feedback	USN-16	As a customer care executive, I can view customer feedback.	Submitted customer feedback can be viewed.	Medium	Sprint-2
Administrator	User Management	USN-17	As an administrator, I can manage registered users.	Admin can view, update, or deactivate users.	High	Sprint-3
	FAQ Management	USN-18	As an administrator, I can add, edit, and delete FAQs.	FAQ changes are saved correctly.	High	Sprint-2
	AI Management	USN-19	As an administrator, I can manage the FAQ knowledge base.	The knowledge base can be updated successfully.	High	Sprint-3
	Reports	USN-20	As an administrator, I can view chat-bot usage reports.	The system displays FAQ and chat-bot usage statistics.	Medium	Sprint-3
